SAMPLE DISCHARGE MONITORING REPORT (DMR)¹

Reporting and Tracking Trades on DMRs and in PCS

I. DMRs:

1A	Parameter	Effluent	<i>[actual measured P discharge]</i>
1B	Limit		Reporting Only
2A	Parameter	Credits	7.5
2B	Limit		Reporting Only
3A	Parameter	Debits	0
3B	Limit		Reporting Only
4A	Parameter	Ratio	.51
4B	Limit		Reporting Only
5A	Parameter	Adjusted Discharge	14.7 $xx - [(7.5 - 0)/.51] = xx - 14.7$
5B	Limit		[Unadjusted base permit limit]

Items in italics are what the permittee reports on the form. Everything else is preprinted on the form. The bottom row (5A/5B) is what PCS will use for the compliance determination. Rows 2 and 3 would be in "Parma Pounds", and rows 1 and 5 would be in real pounds measured at the outfall.

¹The real DMRs will include detailed instructions on how to complete the form
